

## REALISTIC DRONE VIDEO PROMPTS

### 1. Ultra-Realistic Drone Flyover

Create a hyper-realistic drone flyover shot from this image.

Smooth aerial camera movement, 4K quality, natural lighting, slight wind motion, realistic shadows, gentle forward glide, stable gimbal feel.

### 2. Cinematic Drone Reveal

Turn this photo into a cinematic drone reveal shot.

The camera lifts upward, revealing the surroundings, soft gimbal stabilization, high dynamic range, natural wind motion, real aerial perspective.

### 3. Drone Orbit Motion

Transform this image into a drone orbit video.

The camera slowly circles around the subject, smooth stabilization, realistic lighting, subtle motion in the environment, high-detail textures.

### 4. FPV-Style Smooth Motion

Make a smooth FPV-style drone shot from this image.

Fast but stable forward movement, natural environmental motion, dynamic lighting, subtle tilting, realistic depth and parallax.

### 5. Real Estate Drone Look

Convert this image into a real-estate drone cinematic shot.

Wide-angle aerial perspective, slow upward tilt, smooth gliding camera, crisp lighting, stable gimbal feel, high-resolution details.
